It is understood that this Agreement shall become a binding contract once all parties hereto have signed it. As a result, please don't sign this Agreement without first reading it carefully.

The above-named Author(s) hereby warrants that the Manuscript submitted to FMDB Publishers for publication in the above-named or any other FMDB publication is original and has not been submitted to or published in any other publication, and that all trademark use within the Manuscript has been properly attributed to its owner or written permission to use the name has been granted.

The Author(s) further warrants that no copyright exists in any of the pictures included in the work, including but not limited to tables, screenshots, illustrations, etc. To avoid legal issues, the Publisher will not consider any manuscripts for which someone else owns the copyright. The use of substantial verbatim text from another copyrighted work is prohibited without the express written authorization of the copyright holder.

As long as the text's meaning is not significantly affected, the Publisher retains the right to make editorial changes to the work for both the first and subsequent printings (i.e., incorrect grammar, typographical errors, or punctuation). Page layout and other components of publication preparation are within the sole discretion of the Publisher to ensure they are consistent with the Publisher's system, methods, and business practises.

For future anthologies published and disseminated by the Publisher, the Publisher may use the Manuscript in any way it sees fit, including but not limited to the creation of derivative works, so long as the original authors are credited as Authors(s).

If plagiarised or copied material is discovered either before or after publication, the Publisher has the right to pull the entire publication or work.

When the Publisher determines, in its sole discretion, that the demand for this work no longer warrants its continued manufacture in format, the Publisher may discontinue printing hard copies without liability to the Authors and may provide each Author with an electronic pdf file of the Author's final typeset manuscript. A digital version of the Manuscript will remain available in the Publisher's catalogue, however.

As long as the Author's name is included, the Publisher will allow others to publish, broadcast, record, construct mechanical renditions, translate, create electronic versions, quote, and otherwise use this work and material based on this work.
